

# PFAS Treatment to Disposal

## Seminar Speakers

### Treatment Technologies

Anthony Finding, Chief Operations Officer, CHMM, BSTI  
P: 610-806-5287, [tfinding@bstiweb.com](mailto:tfinding@bstiweb.com)

Tony is a Certified Hazardous Materials Manager, a New Jersey Certified Industrial Wastewater Treatment System Operator (Class N-2) and a Maryland Wastewater Treatment System Operator (Class I-1). He specializes in project management, remedial strategic planning, feasibility testing and remedial implementation. Mr. Finding functions as a Project Manager and the Operations Manager for BSTI.

### Current Trends in Claims

Grant Nichols, Senior Vice President, CAC Specialty  
P: 215-990-9161, [Grant.Nichols@cacspecialty.com](mailto:Grant.Nichols@cacspecialty.com)

Grant has spent his career both as an attorney and as an insurance broker crafting risk management solutions to business issues. Specializing in environmental and transactional risks, he works with private equity firms, real estate developers, lenders, consultants, manufacturing companies, and municipalities to mitigate and transfer their liabilities, often in the context of equity, asset, and real estate transactions.

Grant is a Senior Vice President at CAC Specialty. He has spent his career both as an attorney and as an insurance broker crafting risk management solutions to business issues. Specializing in environmental and transactional risks, he works with private equity firms, real estate developers, lenders, consultants, manufacturing companies, and municipalities to mitigate and transfer their liabilities, often in the context of equity, asset, and real estate transactions.

Before joining CAC, Grant was a broker at Marsh JLT Specialty. Prior to that, he practiced law at Greenberg Traurig LLP and Drinker Biddle LLP (now Faegre Drinker), where he represented many of the same clients he works with today. These experiences give him a unique perspective on how to tailor insurance coverage to match our clients' transactional and operational exposures.

Grant holds a bachelor's degree from Rutgers University and a law degree from Rutgers University School of Law.

# PFAS Treatment to Disposal

## Seminar Speakers

### **Treatment Waste Streams Generated**

Jeff Roberts, PE, CHMM, LEED AP, Technical Services Manager, US Ecology  
P: 734-521-1856, [jeff.roberts@usecology.com](mailto:jeff.roberts@usecology.com)

A graduate from the University Of Michigan College Of Engineering, Jeff Roberts began his career remediating soil and groundwater contaminated by leaking underground storage tanks (USTs). He returned to UofM and received a Master of Public Health with a focus on Risk Assessment, Risk Management and Risk Communication. For over 25 years, Jeff has worked in the areas of waste water treatment technologies, hazardous waste program development, pollution prevention and compliance. Currently Jeff works at US Ecology and is a Manager in the Technical Services Group responsible for implementing organic growth initiatives, operational process improvement and optimization across the Environmental and Field Service Divisions.

### **Moderator**

Guy Sheets, Director of Business Development, BSTI  
P: 610-306-2245, [gsheets@bstiweb.com](mailto:gsheets@bstiweb.com)

Mr. Sheets has over 38 years of experience in environmental consulting and energy services, serving as project manager and business development director. Many of the projects have involved real estate transfers, environmental compliance, brownfield development, demolition, siting, permitting, and site work for construction. Much of this work has been done working in support of legal counsel to complete site acquisition, negotiation of permits, zoning, legal research, and review of contracts.
